Switches & Sockets  
J-Series

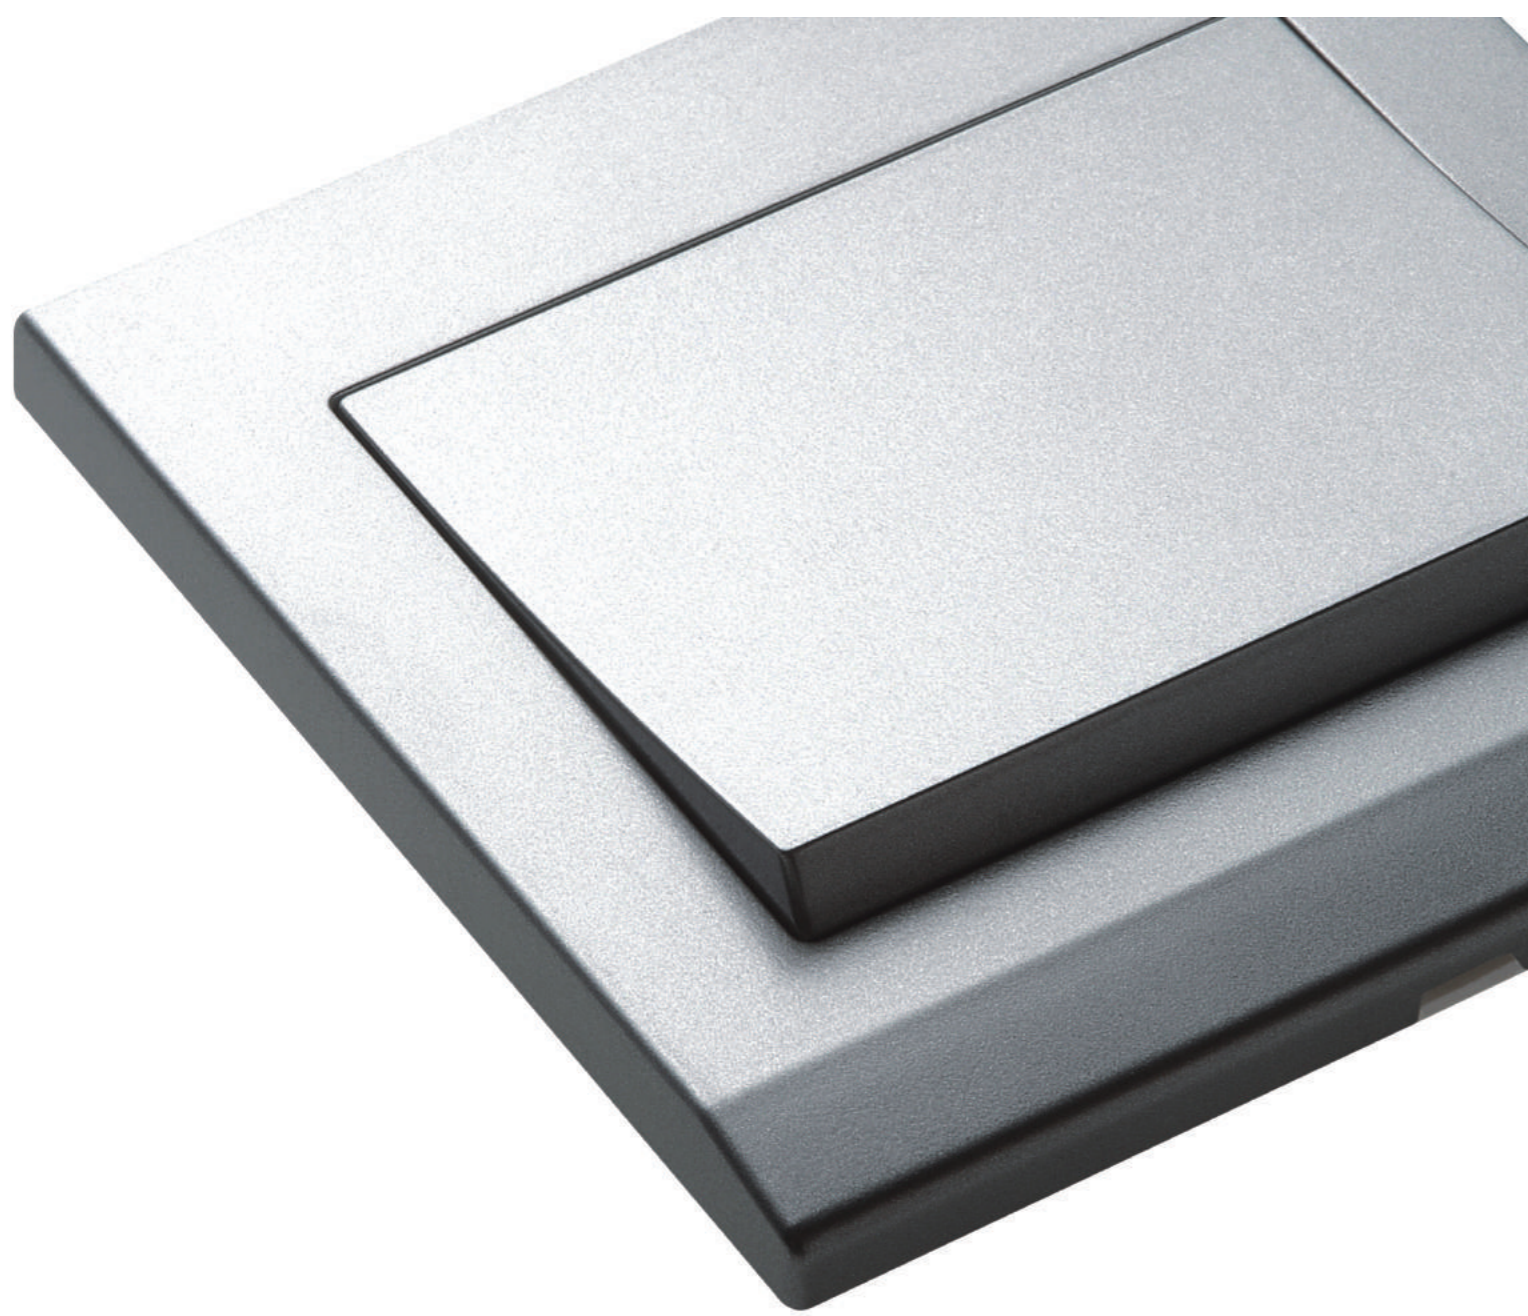

Smart J-Series. Gold faceplate, White function Units.

Smart J-Series. Bronze faceplate, White function Units.

### The Smart J-Series Design System

The Smart J-Series switch system is modular, it consists of 7 switch range with over 50 functions for convenient, economical and secure living. All functions can be combined in various colours with different cover frame variants. This results in a huge design diversity. And it enables Smart J-Series products to be put together to match any furnishings.

### Colour Variants Frame/Wide Rocker
